Founded in 1947, Hal Leonard LLC has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I really love this book of Christmas songs written in easy to play "fake" music format. I am just learning to play and this is a very interesting and fun way to learn quickly. I only play for my own pleasure, and I have enjoyed trying these out so far. I'm not expecting to be any great piano player,

but this book has helped me learn to play quite a few of my favorite Christmas carols without getting too annoyed and frustrated. Thanks!!

My annual company Christmas party was coming up and I knew I'd be the designated piano player so I hopped onto , found this Fake Book and had it shipped to me ASAP. Well, the party was this past weekend and this book definitely helped make the "entertain" portion of the party an overwhelming success! This book has TONS of great Christmas tunes, both old and new, and they're all in easy-to-see, easy-to-play format so that anyone can be the life of the party and lead everyone in a great holiday sing-along. I'd highly recommend picking up a copy of this book to help make this holiday season the best ever!

This book may start with the iconic favorites, but then gives you so much more. I play for the residents in the private retirement village in which I work. When I brought out the first set of lyric sheets I'd made they were amazed. Imagine the fun they had learning, "Gramma Got Run Over By a Reindeer" . Oh, yeah, you want not only THIS book. In fact, if you haven't played for awhile or if you play chords better than two staff music, this is an awesome way to get back to EASILY tickling the ivories you may have long ago given up on. I own five of Hal Leonard's collection and I not only use them at work, but, hey, I gotta practice at home at first, right? Give yourself a gift. GET 'EM ALL. But start with Christmas. I would say to the Hal Leonard Co, though, that I wish they would publish them with spiral bindings so they stay open. I always go to FedEx and have the spines cut off and the spiral bindings added for another \$5. But its worth it.

If I can play these songs, you can. Excellent for a crowd who love to sing louder than I play.

once again, i love these books! they actually are better chord-wise than i expected before i bought any.

I'm just beginning to learn to play and this book is terrific for me!!!

Have just gotten back into playing after too many years to mention. I'm attempting reading the chord method for the left hand which I've not really done before. This book offered me almost instant success in playing Christmas music...some easy and some with a bit more challenge.I would recommend for new players or redo's like me.

Excellent!
