## **Customer Reviews**

I have several Paleo and Keto cookbooks (I love both those diets), but this cookbook is easily one of my favorites. First, the good: The diet is 100% real. It works and anyone who has given keto a serious shot should already know this. The hard science of keto just doesn't lie. Staying in fat burning mode does take some effort but when you can pull it off day after day and week after week, you can just about watch the fat melt off your body in the mirror. I also love all the extra energy. Now for the bad about this diet: it can feel restrictive at times. There is a lot of stuff you just aren't going to be able to eat if you want to do keto properly and enjoy its many benefits. I have had problems with this in the past where I will give in to temptation a few times only to destroy my progress I made with keto. Fortunately, this particular cookbook does a lot to mitigate this problem. There is a really impressive variety of different meals, all with nutritional facts so you know you are staying on track. I

also think the meal plan helps alot with staying committed. I'm not finished the 30 day challenge yet, but so far I am really enjoying it. I don't think temptation is going to be a problem for me with this meal plan since the dishes really change things up from one day to the next. Ultimately I think the make or break factor for any cookbook though is simply this: do the recipes actually taste good? Do I look forward to eating them and can I be proud of serving them to guests in my home? This answer to these questions is a resounding YES and that is where this ketogenic cookbook earns its 5 stars in my opinion. I LOVE these recipes. Haven't found a single dud yet. I think it is unusual for any cookbook to just distill the "greatest hits" of a given diet, but this collection just nails it. If you are only going to get one keto cookbook, make it this one.

This cookbook is loaded with high quality recipes for Ketogenic dieters. The layout of the cookbook is a meal plan that takes you through 30 days of Keto meals. It is challenging to stick with a diet for 30 days (I guess that is why it is called a challenge) but the recipes in this book are really good so it makes it alot easier. If you can succeed your reward is weight loss and better health. To me, it is worth the challenge!

pictures aren't great and some recipes are missing ingredients, cooking temps and measurements...it's okay, but will be looking for better more accurate books and websites. I would give this book a C- at best. I wouldn't recommend it to anyone, but not giving it lower score cause it's not the worst book I have ever read but I'm sure there are much better.

I purchased this book (and returned it) specifically because it advertises "pictures". What you find out after receiving the book are the pictures are mostly 1 inch x 1 inch black and white pictures that may or may not be the recipe mentioned. What would it cost to include full-page color photos for the finished recipe??? Whatever the amount that you'd need to pass onto the customer - I'm sure they'd happily pay it, I know I would.

From page one to page 63, the odd numbered pages only, have a line going down the page where print is missing. I will be returning the book. Unreadable.

Awesome! A perfect diet book. This book is just perfectly fit for me. It is what I needed. I have a difficulty in controlling my diet and this book has helped me to overcome that. This has tips and guide and contains recipes that will help you in your diet. I'm glad that I had observed that there's a

big difference in my weight since I purchased this book. Really worth recommending!

Ketogenic diet became trendy, i was curious to try it out , and i am glad i did , this book is well written easy to read and understand, all those recipes are so good, thanks to the author i recommend it to anyone

I expected more, there is a basic description of foods to eat and those to avoid and then a lot of recipes. Maybe my expectations were off base.
