475 Tax Deductions For Businesses And Self-Employed Individuals: An A-to-Z Guide To Hundreds Of Tax Write-Offs

Synopsis

Updated to include recent changes in tax law! Are you paying more taxes than you have to? The IRS is certainly not going to tell you about a deduction you failed to take, and your accountant is not likely to take the time to ask you about every deduction you're entitled to. As former IRS Commissioner Mark Everson admitted, "If you don't claim it, you don't get it. That's money down the drain for millions of Americans." • This invaluable book, updated to reflect changes in tax law, not only lists the individual items that are deductible—from Internet domain name costs to theft losses—but also explains where to list them on your income tax form. "Tax law isn't easy," the author explains, "but this book is."

PRAISE FOR A PREVIOUS EDITION This A-to-Z guide to hundreds of legitimate write-offs is like found money for business owners. (Deborah L. Jacobs, Syndicated Columnist Working Life)

PRAISE FOR A PREVIOUS EDITION Packed with hundreds of tax tips you and your accountant probably never heard of. A terrific book. (Jane Applegate, Syndicated Columnist Small Business)

PRAISE FOR A PREVIOUS EDITION A great tax deduction resource.

Bernard B. Kamoroff is a C.P.A. with 30 years of experience specializing in small business. A University of California lecturer, he is the author of five books on business and taxes. He lives in Willits, California.

ABSOLUTELY EXACTLY WHAT I NEEDED and so helpful as a long time small business owner needing to know the "easy to follow" directions on what is actually a deduction verses what I "feel" should be. Extremely informative for my team as well. Many of them have purchased based on the information I was able to share because of my new found knowledge!

Pretty insightful regarding how very unlikely it is for anyone's CPA to sit down with them with a list of 500 deductions and go over each one to find out if they apply to them. It is the taxpayer's job to do his/her homework and then present a list of deductions to the CPA for further investigation. This book is a good place to start for those who don't have a clue about the difference between a tax deduction and a tax credit.

This did not have any information that I did not already know. If you don't have any knowledge of self-employment tax information than this is the book for you.

If you are absolutely clueless, I suppose this book could help you. It's simply to repetitive. Two entires are guard dog, then watch dog. Another example of the repetitiveness is, car, truck, van, motorcycle, vehicle, etc. It's all the same. Waste of money for me unfortunately but hey, at least I can claim the "this book" entry as a tax deduction this year.

I am satisfied with this reference tax book so far. I plan to use it along with other current tax references to lower my taxes.

I love this book. It is exactly what I need lo learn. I recommend this book for anybody that need help learning about tax deductions

good overview

This was a very basic book for me. I think it would work fine for a new business person but I didn't find anything new.
