Synopsis

122 Paintings, Drawings and Sketches with the aesthetics of Black & Grey This third volume of Paintings, Drawings and Black & Grey Sketches includes new and talented artists, presenting the works of 48 artists from around the world. The book is divided into 3 sections: Color, Black & Grey and Sketches, adding a total of 122 images. Again, we have decided to include the color section inside a book of Black & Grey, utilizing the same concept that carried us to do it in the previous volumes, since many of the works included in this section contain details with some particular color characteristic that are utilized in this type of works and they give it an excellent final touch. But, also you will be able to see works that are 100% in color, which are a subject matter very much used in this kind and that can be carried over to the field of the Black & Grey perfectly. A very interesting part that the book has of Black & Grey, is the quantity of styles and themes that can be represented in this style, the ones that cover all the areas, but the most related styles to this kind are the terror, chicano, realism, surrealism, biomechanics and fantasy. I would tell my son and friends I love the black and gray tattoo ,to add my spin on the pictures

it could be better

Very morbid. Likes... A different approach to dark and gruesome love. Detail in every piece.....

Dislikes... A lack of floral or Chicano presence . Black and grey is an art that was defined by Latin artists and prisoners, very little is represented to pay homage to the roots or greats.

Lovely detailed art. Creepy at times, yet most of the time unexpected. Great inspiration pieces.

Can't wait to see more volumes of this art!

I liked it it's worth the price it's fill with a lot of art it's was really I have to say

It's ok but thought there would be better pics. There are some good pics and for a free book it's

worth looking at.

Dark compelling designs from some great artists. I like the art selection, and the quality of the pics are amazing. It's a good reference and inspiration for people who make tattoos, people who like them. I'm a big fan of this book series!
