The LEGO Adventure Book, Vol. 3: Robots, Planes, Cities & More!

Synopsis

In this volume of the LEGO Adventure Book series, Megs and Brickbot face their toughest challenge yet. The Destructor is on the loose again, demolishing LEGO models and shaking things up! Join Megs as she rebuilds the models and meets some of the world's best builders. Learn to create a Renaissance house, a classic movie theater, sushi, Miniland-scale marvels, an ice cream truck, street lamps, and even a chicken coop. With 40 step-by-step breakdowns and nearly 150 example models, The LEGO Adventure Book will surely inspire you and keep you building!

Age Range: 10 and up

Grade Level: 5 - 7

Customer Reviews

Megan H. Rothrock is a former Product Designer for the LEGO Group and the author of the popular LEGO Adventure Book series, currently at three volumes and counting. She has displayed her models at ComicCon International, The LEGO Show in the UK, LEGO World NL, and many other LEGO events across Europe and the US. She is also the former European Bureau Editor for the LEGO fan magazine BrickJournal. This on-the-go toy designer and author of LEGO books is currently developing more LEGO fun for the future!

This is book 3 and it is just as good as the first two books by Megan Rothrock. I love the layout of these books with the comic book format and several builds with inventory list and the instructions.

Also, the author gives good tips on how to build floors in your MOC (My own creation), roofs and many other elements to make you successful in building your own ideas. Great book I would recommend to all of those who loves Lego.

This bricktastic entry in the Lego adventure book series is amazing and I sure can't wait for a forth. And a fifth. And a sixth. And seventh and eighth and ninth and tenth and eleventh and twelfth and so on and so forth

This book is perfect for the kid who has a ton of Lego sets already. They can use these instructions to build new things with the Legos they already own. My three sons ranging in age from 5-9 loved this book.

Nice continuation of the series. My kid just loves Megs and all the adventures, sometimes the (very simple) story is attracting him more, than described Lego wonders. Give us more Lego Adventures!

My daughter loves this book, she's always referring to it and gleaning ideas to increase her creativity.

Would be better with lego part numbers for the examples but otherwise a nice book.

"The book is divided into sections and gives me many ideas by using new legos that I have not seen before. "

11 year old Grandson loved it !
