Customer Reviews

I got this used for a great price. The highlights and notes in the margin on this particular copy gave it charm and actually proved to be helpful. Bought to learn "The Child is Gone" specifically, but ended up enjoying this album all over again from this purchase. The content musically was enough for me to work on, as I usually go by the guitar chords and go from there. Can't say yet if the music part itself is hearty enough to satisfy a seasoned piano player who can read music fluidly.

The book is great, but the cover came damaged. Front is all folded up, and there's a footprint on the inside cover. Supposed to be a gift, so I'm pretty disappointed.

Loved her in the 90's going through high school! Love her just the same now!

Have been meaning to purchase Fiona sheet music for a while and this showed up right on time in mint condition ~ thanks!

It is good in general, but I found some errors, for instance, in "Sullen girl" the low notes are one octave down from what it has to be (I have repeatedly check some live videos), it is good as a reference, out from that it is completely accurate.

Love this item. Please don't force your customers to write more than they want just to fill a word quota. It is very annoying.

product arrived in less than a week and was in a condition that was consistent with the description on . great experience.

I'm not completely in love with the arrangements that the editors put together. I think this is the fault of someone who decided that the vocal lines needed to appear in the piano part.
