Customer Reviews

great

I bought this book yesterday and glanced over it last night. The person who transcribed Sublime's music knows his stuff. He even knows when the song is in an unusual key, like G dorian or mixolydian. All the guitar parts are included, and it even lets you know when to kick in an effect such as reverb or delay. Almost all of the songs in this book can be found on their greatest hits album, except for "miami, 1992." If you're buying this book to be able to perform their songs in front of an audience, you'll do very well. Just practice because even though Brad makes the guitar parts sound simple, they're pretty intricate once you see what he actually does on paper. I just wish they had the TAB for the bass guitar part also.

I love Sublime and I love guitars. This book is great if you like rock/ska bands. If your a fan of Sublime this book is a must have. Don't take my word for it!
