For my purposes, the book was a good supplement to the adequate tablature I got off the internet, but the book is not a sheet music version of the recorded songs. Like a lot of similar song books out there, most of the stuff is in the wrong key. And I needed the version of "My Girl" by the Mamas and Papas. The version in the book is the generic rendition without the intro or bridge I needed. There wasn't a good tab on the internet, and I ended up just picking it up by ear. A good photo section, like some of the old songbooks have, would have redeemed this book. But no photos except for the front and back cover. I have not picked through all the songs in the book, but so far I am not too impressed with it. Hope to sit down follow along with some of the recordings. Maybe better luck then.

Fabulous book. Pieces easy to play and satisfying to listen to. Excellent value for money. Would recommend for intermediate players and those who need to complete their musical education!

Another great song book that my husband enjoys. I'm glad I decided to get this one also. He has enjoyed all his song books.

Great

This song book is in excellent condition and arrived promptly (even a bit earlier than expected). I highly recommend it to "old-time song groups."

Great book for an intermediate piano player.

Great song book!

The songbook was great...I love it! Thank you for your prompt service. A pleasure doing business with you.
