# First Form Latin Pronunciation CD

## **Synopsis**

First Form's grammar first approach focuses on grammar forms and vocabulary because those are the grammar stage skills suitable for the grammar stage student. However, the First Form Series is for students of all ages because all beginners, regardless of age, are in the grammar stage of learning. Syntax (how to use the grammar) and translation are logic and rhetoric stage skills, respectively, and quickly overwhelm the student unless they are introduced at a slow, gentle pace and taught for mastery. First Form is the ideal text for all beginners, grades 5 & up, or is a great followup to Latina Christiana I at any age. Now every school and homeschool can have a truly successful Latin program that creates Latin scholars rather than Latin dropouts. After mastering First Form, the student will have a solid grasp on the six indicative active tenses of the first two verb conjugations, five noun declensions, first and second declension adjectives, and 185 vocabulary words. Voice of Glen Moore

CD will do you no good without the workbook... this information was not presented in the description.

Good product

Very instructive and informative, just what I was looking for in learning the so-called 'Dead Language' which really should be taught in all schools.

very helpful for teaching beginning Latin.

It is great! We like the product and the service!

You actually hear the Latin pronunciation clearly.

While I wholeheartedly love and recommend the Memoria Press Latin curriculum, I could do without the CD. The speaker goes way too fast, making it impossible for my students to chant along with him. Even I can't keep up with how quickly he goes. If you follow the pronunciation key in the book, you don't really need this CD. I don't feel that it added anything to my students' understanding of First Form Latin. Memoria Press needs to redo their CDs. The Latina Christiana one was also poorly done, and the speaker didn't even pronounce some things correctly.

The recording is well done and helpful it doesn't differentiate between classic and church Latin pronunciation.
