Customer Reviews

Ever since my husband and I took our almost four-year-old twins to see Trolls about a month ago, they've been obsessed with talking about Trolls! Every night they ask me to read a book from our ever-growing collection of Trolls books and even I can't deny that these books are fun to read. A book-lover myself, I have no problems buying my kids books because I love seeing their excitement from listening to a good story or looking at pretty pictures. I found this Trolls Look and Find book and couldn't resist buying it for them. Trolls Look and Find is a hardcover book with colorful, glossy pages. The book measures 10 inches by 12 inches and contains about 18 pages of things to find. Each set of pages is a scene featuring one of the main Trolls or some of the Bergens and then you are given six items to find on each page. The pages are very busy and colorful and the items can be tricky to find sometimes but the challenge makes it fun for my kids! There are also two pages at the end with other items to go back and find on their respective pages so kids have more items to look for and won't get bored as easily. We also like to play "I Spy" with the pages and find things of our own for more fun! One thing to note is that some of the Look and Find books have a puffy cover but this one is a regular hardcover which is fine with me. I was just surprised since many of the Look and Find books we own have puffy covers. Overall, I'm glad we bought this book for our kids

because they are really enjoying it! It's a book they can both enjoy and I love to sit and look for items with my kids. There is no age listed for this book but I would guess it's good for ages three and older, although older children might get bored easily with it. My twins are almost four and some of the pictures are a challenge for them so I would say the target audience is probably ages three to five and possibly a little younger or older. It was nicely priced and I recommend it for any Trolls fans!

I bought this for me. But I have a little girl who comes to visit once a week and she loves this book. She finds the objects and then I have to find the objects. I'm very old. She's very young. We have a great time finding the objects and talking about them.

I bought this book as a gift for my friend's daughter for Christmas. She is an intellectually advanced 2.5 year old. She loved it! It brought the biggest smile to her face and she had so much fun flipping through and finding things. Perfect buy. She loved it.

This is such a cute look and find. My 4 and 6 year old still love the trolls movie and soundtrack. My 4 yr old can find all of the items in the book by herself, so I would even recommend it for 2-3 yr olds.

My child absolutely loves Trolls. I bought this as a car ride activity. She loves to look for the different items, and has spend hours looking through this book. I strongly recommend this to anyone with a troll fan.

Nice big colourful book. Lots of fun activities in this book. My 4-year-old granddaughter gobbled this book down fast! She is hungry for knowledge and this book was self-explanatory for her. She still reads it and re-does the "look and finds". This nice hardcover book has definitely sharpened her skills in reading, hand/eye coordination and memory. I would absolutely recommend this book to any boy or girl 3-6. Great for preparing your child for the next level.

awesome easy to use well made great product just as described and arrived on time with great quality and super fun

Great book finder. My granddaughter has lots of fun searching and reading.
