Age Range: 5 - 6 years

Grade Level: Kindergarten and up

## **Customer Reviews**

These cards are well made, simple to use and easy to sort. I have looked all over for cards like this and for a split second thought I would just make my own. Luckily, I went on who never lets me down and found these. On one side is the state and a map of the US and the other side is the capital and a map of the state with the capital marked. There are 34 country cards listing the name of the country on one side, and the capital of the country again with a map on the other side. Exactly what I was looking for. Just something easy and gets to the point perfect for memorization. Do yourself a favor if you are looking for State and Capital flash cards just stop looking and buy these. You will be very happy you did!

Great Quality and just what i needed, accidentally ordered two boxes, but the price was so good i will give the extra box to someone! You won't be disappointed.

Really helpful when my 11 year needed to learn the states and capitals for her states test in 5th grade. Would recommend!

It helped my oldest grandchild learn for her social studies test. She was struggling with it, but these did the trick, I think.

Works for what I need, which is a quick memory quiz of states and capitals. Good quality card stock. Happy with it.

I got these for my daughter because I think it is sad our school district does not teach states and capitals until 5th grade. She is in 2nd grade and is a good reader and these work great. They are also very sturdy compared to other sets I have seen. Besides the states, the set comes with country cards. The countries are actually a bit difficult, with African, Middle Eastern and South American countries, good challenge for adults as well as a good thing for your kids to be learning too!

love the fact that not only do you get states & capitals but you get countries too

Just what we were looking for to help our granddaughter with homework.
