I absolutely love this book! The title is a bit rubbish, but the content is amazing. It is clearly and

beautifully written in a way that is appealing to both adults and children who may be reading this book. It is well designed - each topic is carefully considered. I actually found the background and philosophy more helpful than the advice for actual yoga with children, but that's ok, as I'm a yoga teacher so didn't need help with that part so much.

Love this book. I teach kids yoga classes and I constantly turn to this book for ideas. Jodi really knows her stuff.

This book has nice descriptions and photos that show what the poses look like.

No comments.

Easy read with lots of great ideas for either teachers or parents or grandparents who want to do yoga with kids.

I haven't gone through the entire book yet, but it looks to have a little bit of everything for many age groups, which is just what I was looking for.

I admire Jodi and find this to be a great resource. This book reflects her deep understanding of children and their response to Yoga

a very hard to find book at an excellent price for its condition. my son loves it and sees the poses as play, relaxing for all and a lot of fun
