We keep adding to our collection of Read-Along storybooks; my daughter (3 years old) loves them! When we are at home, we use a boombox to listen to the CD, but I also like taking these in the car. My daughter can turn the pages of the book on her own when she hears the chime and loves following along with the story. She really enjoys hearing the voices and dialogue from the movies she knows so well. Note: The Disney storybooks vary in length; this one is 11:35 in length.

The narrator is very good. Chime sound to tell you to turn pages. Voices from movie. Unfortunately the book and pages are very thin and stick together, making it easy to rip. These are not the same Disney read along as the 80's.

Great book, colorful and engaging pictures. Just wish the quality of the pages (they can rip easily) was better and the story a little longer.

Nice product!

Brand new and wonderful book and CD! Love it!

great product

Great narration and sound effects. Keeps my toddler's attention. Would love for the book to be a little sturdier since we're listening to it a lot!

I got a ton of these Disney CD Read Along Books for my first grade listening center. My kids really love them since many of my students are already familiar with most of these stories. This seller was better than others.
