Customer Reviews

Syd Hoff was a much-loved and much-read author and illustrator of numerous books for children, most notably the Danny and the Dinosaur titles and Sammy the Seal. Born and raised in New York City, he studied at the National Academy of Design and sold his first cartoon to The New Yorker when he was eighteen. His cartoons became regular features in many magazines and newspapers. Sid Hoff was born in 1912 and died in 2004, at ninety-one. His books continue to delight readers worldwide.

Great little book. Checked it out at the library for my students, but they loved it so much I had to purchase this copy. This is a great book for early readers and it encourages them to read more, because they can read it by themselves the very first attempt.

This book is AWFUL. As the reviewer "JB" wrote above - this will NOT help a kid who moves to a new neighborhood or who is having trouble making friends. He goes to the park to try to make some friends. The kids all reject him, and do not want to be his friend. The poor kid is left playing ball by himself, throwing his ball up in the air and catching it repeatedly. Then the boys walk over to him and saying they want to be his friend because, "We need someone who can throw and catch like that." They only want to befriend him if they can use him. It's an absolutely horrible lesson. The kid would have been better off with no friends, than with friends who reject him, and then only want to use him for his catching and throwing skills. Unless you want to give a message to your kids that they only need to be kind, welcoming and friendly to a new kid in town IF he has something you need, stay away from this book. Teaches kids how to use people, or that people will use them. I should add that I grew up on a few of Syd Hoff's books and really liked them - like "Danny & The Dinosaur" and a couple of others. So I was sure I would enjoy this one. But I hate it. I'm not even returning it or donating it to a library, but rather throwing it in the garbage. Any child in the USA is better off not having a book than having this book.

This was the first book I learned to read when I was 3 and I was so happy to find it to start reading to my baby in the womb so he can learn it too when he is born. It came so fast I couldn't turn my head fast enough and it was here.

I guess it has simple language that a new reader could read. But I bought this book to read to my daughter to help with our upcoming move. I'm glad I read it myself before reading it to her. It does NOT teach a child how to make friends. First, he goes around town asking 'Who will be my friend?' and only adults respond to him. They agree to be his friend, but none of them has time to play right now. Then, this poor kid goes to the park, asks to play, is rejected, then starts playing by himself. It is only after the other boys see that he is good at throwing and catching the ball that they allow him to join them. That is not very instructive.

As I expected

This is the first book I read to my parents. They were amazed I was able to read and comprehend. I lost the original book and now I am buying this replacement for my daughter.

I looked this book up simply because it brought back sooo many memories of my childhood. I never in a million years thought that it would actually be available on . It was exactly as I remembered it to be except that it is paperback and mine was a hard back book.

I am a college student right now who volunteers at a local elementary school. I am doing a reading system with them and this is their favorite book to read. It is written for k-1st grade level and the topic of the book relates to what children go through when they move into a new neighborhood. It also teaches the children to make new friends. Freddy is the main character in this book and he tries to find new friends until he finally meets some boys at the park who are playing baseball and they let him play with them. I recommend this book to any family who is trying to start their child towards the reading path.
