## **Customer Reviews**

Craig M. Wright received his Bachelor of Music degree at the Eastman School of Music in 1966 and his Ph.D. in musicology from Harvard University in 1972. He began his teaching career at the University of Kentucky and for the past 40 years has been teaching at Yale University, where he is the Henry L. and Lucy G. Moses Professor of Music as well as Director of Online Education. He teaches his perennially popular introductory course "Listening to Music", also part of the offerings of Open Yale Courses, and his selective seminar "Exploring the Nature of Genius". The author of numerous scholarly books and articles on composers ranging from Leoninus to Bach, Dr. Wright has also received many awards, including a Guggenheim Fellowship, the Einstein and Kinkeldey Awards of the American Musicological Society, and the Dent Medal of the International Musicological Society. In 2004 he was awarded the honorary degree Doctor of Humane Letters from the University of Chicago, and in 2010 he was elected as a member of the American Academy of Arts and Sciences, joining fellow inductee banjo player Steve Martin. Dr. Wright has also published LISTENING TO MUSIC, CHINESE EDITION (Cengage Learning/Three Union Press, 2012), translated and simplified by Profs. Li Xiujung (China Conservatory, Beijing) and Yu Zhigang (Central Conservatory, Beijing), both of whom worked with Wright at Yale; LISTENING TO MUSIC and

LISTENING TO WESTERN MUSIC, Seventh Editions (Cengage Learning, 2015); and MUSIC IN WESTERN CIVILIZATION, MEDIA UPDATE (Cengage Learning, 2010) with coauthor Bryan Simms. He is presently at work on a volume titled MOZART'S BRAIN: EXPLORING THE NATURE OF GENIUS.

These CDs introduce the listener to the great themes across centuries of western music with performances by the greatest musicians.

An excellent material for professional and new musician. The topics are very clear and they guide the reader on the listening process in order to improve the music audition.

Arrived on time and in excellent shape. Material provided an excellent supplement to the book as an introduction to classical music. Check out his Yale lectures on you tube

good i really like the product. I will shop with this company again I would recommend this company to anyone

I was looking everywhere for this set. my friend let me borrow the book cuz i wasn't going to spend \$150 on a book that im only going to use for 4 months.

I ordered the 5-CD companion set to Craig Wright's "Listening to Western Music", 6th edition, through so that I wouldn't have to pay the full \$80-some for the set. With a bit of trepidation I ordered a "used-good" set from what seemed to be a reputable outlet, and when they arrived (in very good time), they were like new. I am very pleased with this purchase!
