## Customer Reviews

My son loved/loves this book. But the way he runs through it, it has taken it's toll! He has worn these handbooks out. The one thing they are all missing though are the weaknesses and strengths. He is always asking me to look those up for him.

I bought this as a gift and my daughter loves it. I'm not into pokemon so I don't really know the characters. She can read it over and over and refers back this book a lot.

My son loves this book but unfortunately the pages started coming loose about a month or 6 weeks after we purchased it. By then I was unable to return it.

Bought two and gave it as gifts. Kids fight for it and guess PokÃ©mon cannot go wrong. If you own the original handbook, you might be disappointed a little since this handbook also included common type PokÃ©mon's. However, you won't find the region specific type in other handbook.

My son loves this book and carries it with him often. He is 8.

Bought this for my nine year old grandson. He loves the book! He finds the information fascinating and loves to draw all the pokemon characters. The book is printed in vibrant color and on quality paper. It was a great find and I couldn't be happier.

I purchased this for my 7 year old. It was really good price for a very colorful book. He loves learning about the different Pokemon characters. This is a great reference to anyone looking to expand their knowledge. It is also great for the parent to better understand what their child is talking about.

My son really likes this book.
