Customer Reviews

It was recommended by my kid's cello teacher. Great exercise book.

I haven't gotten this book yet but I have heard a couple of these excercises on YouTube and those melodies gets one going to practice more!

great book for the medium to advanced cello student. My grand daughter found the numbers easy to understand and master. Very helpful for bridging the beginners to advanced level.

My teacher uses this book among many and it serves it's purpose well. It's all about keeping both hands constantly moving. The etudes are much longer than books like Deak and Sevcik and you will hardly ever find a rest or even a white note. It's all about keeping you moving constantly. This is not a self teaching book, I would only use this book under a teacher's guidance.

It's true! This cello book is perfect for a kind-of beginner that I am. I have played violin and viola for 13 years, so switching to cello is a bit difficult. However, this book has pretty melodies that give me something fun to play as I learn to rework my hand position.

Incredible exercises for cellists. Classic exercises. A must have!
