Reviewed with Olivier Dunrea's Peedie.PreS. Similar in format and approach to Dunrea's picture books about Gossie, Gertie, and Ollie, these volumes introduce two new goslings. Boo Boo presents a little blue gosling who likes to eat; she walks around the barnyard happily devouring morsels left out for the hens, the goat, and the mouse. When she swallows a soap bubble, she begins burping repeatedly. Afterward, Boo Boo seems a little more discriminating about what she calls "Good food." Peedie features a yellow gosling who is a bit forgetful. Though he always wears his baseball cap, one day he forgets where he put it and searches for it without success. His mother reminds him to do a chore he had forgotten, and Peedie is elated to find his cap. Although the simple stories will please children, it's the cleanly designed and sometimes humorous ink-and-watercolor artwork that gives these small books their irresistible charm. The simple texts make these good choices for new readers. Carolyn PhelanCopyright © American Library Association. All rights reserved --This text refers to the Paperback edition.

The ink-and-watercolor illustrations are as simple as the text, and small children will recognize and

related to each story's tiny arc and resolution. Dunrea's simply charming ink-and-watercolor art reveals an endearing cast of diminutive critters. Dunrea's feathered characters have the look and feel of preschoolers rapt in their own discovery of the world. It is the cleanly designed and sometimes humorous ink-and-water-color artwork that gives these small books their irresistible charm.

Although I don't like it as much as others in the Gossie series, my 2 year old does! The basic plot is that BooBoo eats a lot. And once day she eats a bubble, and burps out bubbles. And then she stops burping. It's a 4.5 star.

Love these books! Sturdy and thick with super cute stories...I love reading them as much as my daughter loves hearing them! Also great for beginning readers, as the sentences are simple and sometimes repetitive with uncomplicated text. Love the whole series of Gossie and Friends...highly recommend!

My two year old daughter loves this series of books. The characters are sweet and relatable and words and phrases simple enough for her to memorize but also complex enough for her to learn simple opposites and command words. Boo boo is no exception. My disappointment does not lie in the book itself but in the kindle version. The formatting is all messed up. It only shows one page at a time. It had the words as printed as seen in the book addition but also typed in above the illustrations are the words from the previous page?! It's very odd and a bit confusing. We also have this problem with the Peedie book.

Do you like food and the color blue? Do you like cute ducklings? Then you should read BooBoo by Olivier Dunrea. I think BooBoo is the best book because she like to eat. Also because she eats bubbles and she says good food to almost everything. She eats from morning till night. I like BooBoo because she eats a bubble. She says good food to almost everything. So go get BooBoo and read it. (Written by 1st grade student - Alison)

Simply live it.

Everyone in this house has there own favorite gosling. Mikey loves BooBoo and despite having checked it out from the library dozens of times and having quite a few gosling books of our own he

wanted his own BooBoo book so now he has it. BooBoo loves to eat everything which can sometimes get her in trouble...

Once again I refer you to my review of Ollie the Stomper. Ollie, Peedie and BooBoo should be on the table for every toddler to hold and love. Beautiful books inside and out. I look forward to purchasing more and more. Duck and Goose books should be there also!

Another adorable Gossie and Friends book. We love the illustrations, and the rhythm to reading this story. My 15 month old son will ask us to read this book over and over again--it's a hit!
