PreSchool-Grade 2?Young readers will be sympathetic to this endearing puppy's nighttime routine: wanting a snack, a drink, a hug and a kiss; hearing a story; getting his blanket and doll; and being tucked in. In fact, just like young audiences, Biscuit wants some of these rituals performed twice. This bedtime drama is simplified by clear, large pictures, oodles of contextual clues, simple sentence structure, and repetitive words and phrases. An appealing choice for just-beginning readers.?Gale W. Gr. K[^]-1. Part of the My First I Can Read Book series, this very simple book introduces a puppy named Biscuit, who is small and yellow and makes his needs known by barking, "Woof! Woof!" At least his young owner thinks she can interpret his barks, but sometimes Biscuit has his own ideas. This does just what it's supposed to--it offers an appealing story with a minimum of words that will encourage new readers. The very simple, good-size pictures depict the heart of the action. A sweet entry to reading. Ilene Cooper --This text refers to the School & Library Binding edition.

These books make it easy for parents to find leveled books for their child. There is a circle at the top of each book indicating the level of the book with a number and color. Pre-Primer books are good for parents to read to their toddlers up through kindergarten and beyond where kids become proficient enough to read it to mom and dad. When your child can read and understand the PP level on their own, a parent needs to begin purchasing level 1/first grade level books to read to their child. Following suite, when the child can read and understand level one books on their own, parents progressively move to the next level. Don't put away the books they have mastered...put them in your home library so they can choose it to read again. The more the times a kiddo reads a book, the better they understand and this is what promotes reading! Finally, the books are fun to read, not boring. A majority of the stories come from award winning children's book authors and illustrators.

I liked Biscuit because he was funny and cute. I liked Biscuit because he was acting like a little kid and I also liked how the book was colorful. This review was completed by my eight years old daughter as she read it three times in a row! I would recommend this book for any small children who are seven years old and under. Happy reading!

This was a gift for my niece. I didn't read the book, but she was very excited to receive it, so it must be good.

Great little book for a reader.

Nice book but too wordy for our nearly 5 year old son. He prefers the other shorter Biscuit books for now. We'll try again in a few months.
