Grade Level: Preschool - Kindergarten

Customer Reviews

I have two toddlers who love Sofia the First. Most of the books we have found are longer with more text and not board books, so they are easily destroyed. These books are short and hold their attention well and are durable board books. The text is more about life lessons and not as much a narrative story. This worked well for us, but might not work as well if you are looking for a retelling of an episode of Sofia the First. The price for four books is pretty good too. This was a great addition to our collection.

My daughter who is almost 2 yrs old loved it. Beautiful illustrations and simple to read and understand. We try to use them daily before she gets bored with them.

Love these books. My daughter was so proud of herself when she read these aloud by herself.

It made a little girl very happy . She loves to read .

My niece is obsessed with "Fia" and carries around the books like a little purse. This is perfect for the little that loves Sophia!

Easy turn cardboard pages for little fingers in a learning stage to turn pages. My daughter had a ball with them.

My little little girls likes.

Granddaughter loved it
