Chart No. 1: Symbols, Abbreviations, And Terms

Synopsis

Chart Number One is essential to correct and accurate use of nautical charts. More than a chart, it is a book that defines the symbols, abbreviations and terms used on charts. It also provides important information about buoys, light visibility (range) and aids to navigation. This new and improved edition from Paradise Cay is a complete and accurate high quality reproduction of information provided by NOAA and NIMA.

Paperback: 100 pages

Publisher: Paradise Cay Publications (January 1, 2010)

Language: English

ISBN-10: 0939837560

ISBN-13: 978-0939837564

Product Dimensions: 0.5 x 8.5 x 10.8 inches

Shipping Weight: 8.8 ounces

Average Customer Review: 4.5 out of 5 stars 50 customer reviews

Best Sellers Rank: #751,502 in Books (See Top 100 in Books) #49 in Books > Sports & Outdoors > Outdoor Recreation > Sailing > Instructional #1892 in Books > Sports & Outdoors > Water Sports #6515 in Books > Engineering & Transportation > Transportation

Customer Reviews

NOAA - National Oceanic and Atmospheric Administration NIMA - National Imagery and Mapping Agency

This Chart No 1 has all the new symbols on it as well as the ones we are used to reading. They did a great job. The pages are laminated, the colors are accurate. Electronic Nav. charts are included so you can see what symbols are on your instruments. A lot of material for study in this book.

What's not to love about a book filled with little symbols and their meanings? This is the official legend for all the nautical charts published in the US, both paper and electronic. For those of us who read these, this greatly enhances understanding and usefulness. Should be on every sailors bookshelf or boat.

gotta have it

If you boat, you need charts. If you have charts, you need this book. This is a replacement for the government published chart 1. It is well laid out and easy to use once you spend a few minutes with it and a chart of your favorite area for boating. Quibbles - The abbreviations are split into three sections, so if you don't find your chart abbreviation in one index, go to the next, or the next. I feel that this would be more useful as one index, with descriptions like in a dictionary - Fl G - (All) Flashing Green light.....

Intense! Fun to look at!

Great for what I needed it for

No boater should be without it! Almost too nice to take to sea! Pages are semi-gloss and appear to be water-resistant. Beautiful colors, lots more information, lays flat, spiral binding, user-friendly, larger size, easy to read. And electronic chart display information systems (ECDIS) is a big plus. List goes on and on. You need it, buy it, be safe!

Every boater needs to obtain CHART #1... lots of new / updated information for those who use electronic charts by which to navigate..
