Everybody's Guitar Method, Book 2

Synopsis

Everybody's Guitar Method, Book 2 continues the step-by-step approach of Book 1 that makes learning to play the guitar not only easy, but fun! The careful pacing of the material in the method reflects the vast teaching experience of the authors. Book 2 introduces new guitar techniques while moving into Fifth Position. The innovative 12 Bar Blues section uses an easy-to-play blues riff along with chord accompaniment in several keys to develop ear training and improvisation skills. A detailed fingerpicking section shows correct right-hand technique for playing solos, and accompaniment patterns. The section on musicianship encourages the student to play with a strong sense of melody, while also considering articulation, dynamics, tempo, timbre, and vibrato. Book 2 is also available with a beautifully orchestrated CD.

Customer Reviews

Having taught guitar professionally since the '70s, and having used Hal Leonard books for probably twenty years, I recently switched to "Everybody's Guitar Method" after one of my students showed me the company's excellent books of Christmas songs. Although Hal Leonard offers many, many more books and supplemental material than "Everybody's...", I feel that the basics are better covered here, and the theoretical aspects and terminology are more clearly explained. Just hoping that the publisher (FJH Music) expands their offerings to include a Book 3 and some supplemental songbooks.

Being a novice still, I can truly say that I like this book as well as Book 1. I have improved my skills but still a lot to learn and I was outgrowing Book 1 (instructor recommended). I liked it so well I

thought I would see what else I could learn! It carries over like a refresher course right off the bat and becomes more advanced but it is easy to follow with practice! Just don't get it if you haven't gotten Book 1! I ordered 3 other books of his at the same time but haven't gotten into them as yet. I ordered "Everybody's Strum and Play Guitar Cords, Popular Christmas songs for Guitar Book 1 and Guitar Christmas". The last one I mentioned threw me off because it was shown with a blue cover but mine is red. Has some of the same songs but more selections and information.

They gave a description, and it came as described by the date they said it would. I'm happy with this.

While I have not used this book and am actually still in Guitar Method 1, I can't wait until I graduate to this level. shipped it quickly and safely as usual and they had a good price. If this book is anything like the first one it will be a great learning experience and challenge.
