Customer Reviews

I've lived in the Seattle area almost all my life. I spent 10 years working in downtown. I feel I really know the area. However, in looking for a book to give me ideas of what to do with my kids playing tourist in Seattle this one didn't help. I'm now looking for another book to inspire me in planning out a full week. If you were a kid from out of state wondering what your parents were getting you in for, this book would be okay. Other than that, it's not really that helpful in planning a vacation.

We were going to Seattle and I thought it would be nice if my Little guy who is 7 learned some facts on Seattle before and during our visit, he loved it and was all about the space needle because he learned about it in this book..Great Buy

An excellent resource! I am going to use it as a 4th grade Social Studies text next year. A must have if you live in Seattle or plan to visit. Very child friendly.
