Counting Crocodiles

Synopsis

Poor Monkey. All she has to eat are sour lemons. One day she spies a banana tree on a faraway island, but the only way to get there is to navigate the crocodile-infested waters of the Sillabobble Sea. That's no problem when you're a brave and clever monkey who can count to ten and back!

Book Information

Paperback: 40 pages

Publisher: HMH Books for Young Readers; 1 edition (October 1, 2001)

Language: English

ISBN-10: 0152163565

ISBN-13: 978-0152163563

Product Dimensions: 11 x 0.2 x 9 inches

Age Range: 4 - 7 years

Grade Level: Preschool - 3

Customer Reviews

Counting Crocodiles may feel familiar to you, perhaps due to its folktale roots, maybe because Will Hillenbrand's artwork is so marvelously, comically, stylistically perfect, or perhaps because the delightful rhyme is so much like that of Lewis Carroll or Edward Lear. Here's a sample: "On an island in the middle of the Sillabobble Sea / lived a clever little monkey in a sour lemon tree. / She ate lemons boiled and fried, / steamed, sauteed, pureed, and dried. / She ate lemons till she cried, / 'I'm all puckered up inside!'" Meanwhile, Hillenbrand's full-page illustrations provide unending delights. In the first, most lemony of spreads, the snail is holding a whole lemon in her mouth, the fox has a glass of lemonade, and the lemon tree is laden with a blender, juicer, rolling pin, peeler, spatulas, and pans. The monkey looks suitably soured by the whole state of affairs. On the second page, the monkey spies a banana tree on a similarly deserted island. Of course, she craves a few of these fine fruits. And she wonders aloud how many crocodiles there might be in the Sillabobble Sea. One crusty croc emerges to imply slyly that there are so many crocs that she could easily walk on

their backs to the banana island, and invites her to count them. She counts them: "... one crocodile with a great big smile, / Two crocs resting on rocks, / Three crocs rocking in a box, / Four crocs building with blocks," and so on, until she counts "Ten crocs dressed like Goldilocks." Impatiently, the rascally reptiles ask her how many of them there are, she stalls, she counts them again, and lo and behold! in all the splashing and cavorting, the monkey (with the help of the fox and the snail) gets her bananas! This is one of the most delightful picture books around! (Ages 4 to 8) --This text refers to an out of print or unavailable edition of this title.

How Monkey gets from his small island to a faraway island where a banana tree grows may be a familiar dilemma but, as PW wrote in a starred review, "Author and artist, working with traditional materials, arrive at an altogether fresh presentation." Ages 3-7. Copyright 2001 Cahners Business Information, Inc.

As a mother of a 3 year old daughter and an early childhood educator, this is probably my most favorite book available. The story revolves around a monkey who spies a banana tree on an island across the way and tricks the crocodiles into making a bridge for him to go over and retrieve some bananas. Each page is very colorfully illustrated and is told in a very catchy poetic form. Through the story you count crocodiles from one to ten and back again. The book is short but puts a smile on your face all the way through. This story is excellent for teaching values, sequence in stories and in counting, and is a great introduction to crocodiles. A huge fan of *The Crocodile Hunter*, my daughter finds this story entertaining, and is one of the only stories she asks me to read over and over. It's nice because this is one of the only stories I like reading over and over!

When we borrowed this from the library, we read it several times per day, and my kids were begging to keep it when it was time to return it. Now we have to buy a copy for ourselves, plus one for a gift. The rhymes are better than clever--maybe even brilliant! With the catchy rhythm, this was easily the most fun book I've ever read with my kids. My four-year-old daughter was soon reading it to her brother, with the help of the fantastic illustrations. All in all, a very fun book that will thrill young and old! Update: This is our go-to gift for young birthdays, baby showers, etc. My kids are now in 8th and 6th grade, and they still talk about how much they loved this book!

My families favorite book of all time...bought this for a new teachers classroom :) the students loved it!!

I just read this book to my first graders today. They enjoyed it very much. I like the fact that the children were counting the crocodiles and laughing at the funny ways the crocodiles were dressed. This is a wonderful counting book and it teaches a lesson at the end.

This is a really cute story with great illustrations.

Super cute book for my kindergartener!

Wonderful childrens book and fun way to teach kid's to count.

Great book!
