If the first thing that comes to mind when someone mentions a mummy is a ghastly, bandaged creature staggering forth from a tomb, it's time to take a look at *Mummies and Pyramids*. This entertaining and enlightening research companion to Mary Pope Osborne's *Mummies in the Morning* is perfect for readers who developed an insatiable taste for the mysteries and science of ancient Egypt while reading about Jack and Annie's time- and space-traveling adventures at the pyramid of Queen Hutepti. Guided by siblings Jack and Annie, stars of the Magic Tree House series, the easy-to-read text offers up the secrets of pharaohs, hieroglyphic writing, the building of pyramids, how and why mummies were made, the Book of the Dead, Egyptian gods and goddesses, tomb treasures--and tomb robbers--and more. Divided into chapters covering everyday life in ancient Egypt, religion, funerals, and the most famous mummy of all, King Tutankhamen, the book also offers suggestions on how children can do their own research. Plentiful black and white illustrations and reproductions of Egyptian art make learning extra fun, as do regular appearances by Jack and Annie as they explain details of the text or offer commentary ("Not fair!" Annie says, "Only boys could go to school and become scribes!"). Stimulating and lively, this research guide is a stellar introduction to a subject guaranteed to intrigue young readers. (Ages 6 to 10) --Emilie Coulter --This text refers to the School & Library Binding edition.

How were pyramids built? Why did people make mummies? What magic charms were buried with mummies? Who discovered King Tut's tomb? Unwrap the answers to these questions and more in *Magic Tree House Research Guide #3: "Mummies and Pyramids*, Jack and Annie's very own guide to the secrets of ancient Egypt. Includes information on hieroglyphics, how mummies were made, tomb treasures and robbers, Egyptian gods and goddesses, and much more!

Not impressed. Halfway through the book I decided the topic was a little too morbid. We abandoned the Magic treehouse books altogether and have since converted to the *Adventures in Odyssey* Imagination Station series. Far more kid appropriate and the lessons they learned are much better.

No colour pictures in this Kindle book. Very disappointing! There was a sample of a fact tracker in another magic tree house book we have in hard copy - beautiful, full colour. There are plenty of graphics in this book, all black and white. What is the message for kids? That facts are boring? Not

worth the \$5.....should've brought a coffee!

the little boy this was for loved his present

My granddaughter loves this series but I was shocked at how short these books are. I will find another series to buy for her. I don't think these are worth \$5 each.

My daughter loves this series! We are working on collecting them all.

My son is in second grade and doing a book report on Ancient Egypt. He used the magic tree house mummies in morning book as his report book and using this guide for facts. It is very appropriate for his level of reading and comprehension-and its great to see how much he is enjoying reading the non fiction aspects.

Cute story as expected with just enough facts to peek the interest of my 7 year old but not to scary for a bedtime read. Highly recommend, can't wait to read the next in the series.

Excellent condition, fast shipping and great price! Great for "new" readers that want to read chapter books
