# National Geographic Readers: Manatees

## **Synopsis**

In this level 2 reader, young readers will explore the underwater world of lovable manatees. Follow these gentle giants, sometimes called "sea cows," through their marshy habitats, learn how manatees raise their young, and discover the threats to their environment. Beautiful photos and carefully leveled text make this book perfect for reading aloud or for independent reading. National Geographic supports K-12 educators with ELA Common Core Resources. ## **Customer Reviews**

Laura Marsh has worked in children's publishing for 20 years as an editor and currently as an author. She has written numerous books in the National Geographic Kids Readers series, including Sea Otters, Turtles, and Red Pandas. Marsh has also authored titles in the Mama Mirabelle series and the Toot & Puddle series.

I used this in a literacy station where we focused on text features and how different text features help us understand information. My students enjoyed reading about their mascot :-) and they loved the jokes and riddles at the top of each page.

Very good children's book that sneaks in learning while being entertained. Glad I purchased it. Bought second-hand, but the condition was like new.

Appropriate for my first grade classroom.

My granddaughter loves it.

Awesome little book.

We have several of these National Geographic Kids books, and we're fans of the series overall. This particular title is great. The photographs are really lovely - clear and vibrant. The text is simple, but informative and interesting. Great for an animal-loving 5 year old. Perfect for a level-2 easy reader title. This is one that will get lots of re-reads in our home.

This is a great little book! Every other year for my daughters bday we take a trip and i wrap up a hint for to guess where we are going, this is her hint for snorkeling w the manatees!

My son loves Manatees and really enjoys reading this book.
