In addition to his guitar methods, he also writes a column for Guitar World titled, "From Bach to Rock." Matthias earned his Bachelor of Music from Georgia State University and has pursued Graduate Studies at Boston University. He is a member of The Guitar Foundation of America and the American Society of Composers, Authors, and Publishers.

I just started using the book a few days ago and so far I am enjoying the learning the way its in the book. Great method for beginning guitar players or more experienced. Easy to understand easy to navigate through.

If you're a metal head like me and a beginner and you're really not interested in practicing songs like "Mary Had A Little Lamb" or "Polly Wolly Doodle", Metal Guitar Method is THE must have course. I am really enjoying working my way through this course. In my past attempts at learning guitar from books and videos I just never felt I was making much progress but with MGM I am amazing myself with the progress I am making and it really motivates me to practice. Considering all the overpriced, overhyped crapola in the guitar instruction market, this course is a real stand out and also a real bargain. So many courses take the approach of teaching you something and then move on to something else and seem to have no logical sequence of instruction and it all just never seems to tie together. This is certainly not the case with MGM. Matthias Young is a real teacher, not just some guy who can play guitar. His method builds skill upon skill in a very well paced and logical learning order and you practice those skills by learning songs composed by the author, not just practicing endless exercises. Thank you Matthias for this true gem of a course, I really wish I would have had MGM years ago. So, a journey of 1000 miles begins with a single step, stop reading reviews and add to cart NOW!

got as a gift for someone, he was pleased with it

I have so much learning materials, gonna stick with this 1

Highly recommend this book/DVD Matthias is a excellent guitarist and teacher, you'll learn cool licks and proper guitar technique if you apply yourself to this course!....

The book and dvd are good for the price but when I went to get the free bonus materials at [...] the site is no longer available. If you are buying this book for the added value of the play along tracks...they are not there. I would give it a higher rating but I feel a little duped.

Great book and DVD. I'm having a blast practicing with the songs.

Challenging and fun.
