My 22 month old son loves this book. We read it together and also add extra things to the story by looking at the pictures and connecting it to him using the potty. He gets really into the book and even knows when certain parts of the story come up. When we get to the page that says "all aboard", all I have to do is point to the words and he will say "all aboard". Same thing with "bye bye"

on the bye bye to diapers page, "poo poo" when it says chugga chugga poo poo, and "go" where it says go on the green sign. After reading this book he understands more and more of what going on the potty is all about. Would definately recommend, very entertaining book.

Omg, my son loves his book. He actually talked about this book all the time, he loves train, and I was looking for books to help him learn potty training. Will definitely use on my younger son when he is ready for potty training

My child absoulty LOVES this book! From the day it was delivered (about a little over a month ago) we have had to read it every single night at bed time & my child is now calling our toliet, his potty train! Very cute book! For us, very helpful with potty training.

My son loves this book. He sits on his potty and says "chugga-chugga poo-poooo", all aboard. It's so cute.I decided to purchase this book, because my son loves trains. I thought this would really strike his interest, and I was right. He is well on his way to getting on the potty.

My little one really enjoyed this during potty training. It's a cute book, and it helps encourage them.

My 2 year old LOVES this book, because he loves trains and he loves animals and this book has both. Having said that, I don't think he sees its relationship with actual potty training. Every page I sort of insert my own things to drive the point home that this has something to do with the potty and going to the bathroom in the potty. And oddly enough, it seems to be more encouraging to him than any of the other potty books we've gotten for him. I link the pages to actual potty training and he responds positively, which is great. And since it's about things he likes he keeps asking to have it read to him, so we keep talking about it, and I think it's going to be a great tool to get him more open to the idea of using the potty (he is a very anti-potty kid for some reason, so I'm not pushing, but we use every opportunity to talk about it and this creates lots of opportunities).

My boy loves trains. Hopefully, he will love wearing dry undies soon and I can stop buying diapers.

Love this book. I bought a lot of books to use during potty training with my son and this is both of our favorite. Fun book and teaches the basics well. Added bonus is the train concept. Win win!
