Customer Reviews

Great chord diagrams that had me playing several Credence favorites within minutes of opening the book. It is a small book physically and won't fit on a music stand but the content is perfect for any level guitarist to enjoy.

Sad Money grab, I am disappointed in Hal Leonard books as this is a cheap rip-off. It has some lyrics with partial chording and NO music for each song. There is much better info available for free online!

Book was too small. Music was great.

The book was much smaller than I thought. I must not have noticed the dimensions and assumed it

would be the same size as all my other music books.

Thought it was a larger song book.

Most of the most popular songs are in the book

With no melody lines, not a very helpful or useful book.

Very good chord book. Lack maybe a little bit more details on how to play some riffs, but pretty easy to carry and a good companion to travel.
