Customer Reviews

Best listen to a few episodes of their podcast first as full enjoyment requires hearing the words in their voice. Likely, you are a fan. Thus, you will know much of the contents of this book. I did. But it is a great pleasure to add more depth and the presentation is well written, funny, and insightful. Well worth it.

You're here because you love the Ramble, so buy their book and support the boys. As a soccer book goes, I don't know that I could throw this to my non-ramble friends and expect them to fall in love with it. Some of the chapters stand on their own merits, outside of the context of the ramble. And you'll hear each chapter in your head in the voice of the particular rambler. Why are you reading reviews, if you love the Ramble, you'll find enough to love here, go on get it!

Good and funny read, but I was expecting even more, especially from Marcus. Dunno why he didn't write a single chapter.

Coffee table book with some interesting anecdotes, but on the whole a bit underwhelming. Proud of myself for finishing it.

It's the Ramble boys. The book is so awesome it should be inducted into the Dean Windass Hall of Fame

Very easy to work with. Responded promptly. My son will love this book

Great toilet read

Bunch of muggy little slugs.
