Harriet ZiefertÂ is the author of hundreds of children's books and the publisher of Blue Apple Books in Maplewood, New Jersey. Her books include the bestselling Sleepy Dog in the Step Into Reading series and the acclaimed A New Coat for Anna, a story of the devotion between a mother and daughter during hard times after World War II.

Oh boy... I am 27 years old and I remember my mom reading me "Sleepy Dog" when I was 3-5 years old. I remember looking at the book and trying to sound out the words. I LOVED this book as a child. It has stayed with me for all these years.Fast forward 20 some odd years with a 4 month old, 4 year old and a 6 year old child this was one of the first books I bought for my kids.There is nothing

like making memories by reading. It's personal and it's a one on one activity that includes cuddling and security. "Sleepy Dog" give you all of that with easy to read words for children who are learning to sound out words and make sentences. The pages are colorful, and the story line is cute and simple. This book will be passed down for years in my family and will always be a favorite. I recommend this book for anyone who wants the same. :)

My son loves this book and he read it over and over. The illustrations are clear and cute, the words crisp and easy to read for little ones. Some art can be "messy" and I really hate that in children's books, but clear and precise wording and images help my children to retain the lesson.

We used this book during a recent visit by my granddaughter, since she has two cats and recently lost her dog. I knew she would relate to the animals. Sure enough, she enjoyed reading it with her Mom, but she has a correction for the title, since OBVIOUSLY there is a cat in the story too, that it is Sleepy Cat and Dog. The story is a good one to read before bedtime, and is especially appropriate for young children who enjoy dogs and cats. I suggest that you begin reading this book BEFORE your child is ready to read since it is one with easy word pictures and rhymes that they will learn over time and it will help them take that leap into reading, that those squiggles on the page have meaning. Good choice for very young kids.

Cute to help my kid work on her reading skills. The pictures are darling, and the text a good size for young readers.

Well made book with a great little story for any beginner reader. Perfect little bedtime story for your child to enjoy on their own or with you. Really cute.

Third purchase for this book. 1st child loved it so much and tried to "read" it himself and ripped the copies. I absolutely love this book. I think child two will too

Perfect beginner reader chapter book

My 2.5 year old loves these books! Just the right pace for reading to a young toddler or older baby. Enough words to tell a story without being too wordy where the baby/ toddler loses interest. Highly recommend this book and all others in this series
