Move over Pat the Bunny! Touch and Feel Puppy wants to play, too. In this small, sturdy DK board book, full of irresistible puppy photographs, it's the dogs who do the talking: "I love people tickling my fluffy tummy." (And it is indeed delightfully fluffy.) "I like chewing this fuzzy slipper," says another one, between mouthfuls of a very realistic-feeling blue fuzzy slipper. A puppy's world is full of textures, and young children will adore exploring all of them. (Warning: It's only a matter of time until your kids will want the real thing!) Although I am a fan of DK Publishing books, this one was not a hit with myself or my toddler. She loves dogs so I thought this book would be right up her alley. The book is small to begin with but the

actual touch and feel sections are TINY. One page is just a dog's black nose and my toddler can't even see the fabric part to feel because it's so small. If this book came in a larger size we would like it much more. As it is, I wouldn't recommend it.

My baby loves puppies and touch n feel books, so I had to get this book. She likes this one, but isn't one of the first she goes for. The touch n feel parts are all various fabrics. I wish there was more variety, like a rubbery ball, or wet/sticky noses. The parts to feel are also small areas so it is a little more difficult to guide younger babies to the textured part. However, the binding on this book seems more sturdy than another dk book that I have. Overall, it is a fun book, just not as fun as some other touch n feel books we have that have more variety in textures (try fuzzy, fuzzy, fuzzy by Sandra Boynton, or Usborne That's not my... books).

This is a cute book full of cute puppies. I bought this book because my son loves dogs and he ended up loving this book too! My son loves the touch and feel books and this one was no exception. It does have textured fur and textured paper. The textured paper is not my favorite but my son does not seem to share my opinion on that. If the baby is happy, I am happy.

This book is just ok. It felt like they put zero effort into the "story line." The book just didn't flow and seemed very random / all over the place. The touch and feel parts are nice, though.

Great for my 15 month old

5 pages total for this price. Way too expensive. The only reason I didn't return it is because my son split the page where there is some fabric inserted for puppies nose (after a single use), so I guess quality control not that good.

This is our baby's first touch & feel book. We chose this one because he is obsessed with dogs (we have three and so does grandpa) He loves to pet the dogs but unfortunately he hasn't got the whole petting thing down yet so it's more of punch and pull. While our dogs don't mind we don't like to chance it so we thought what better way to let him practice petting than using this book? He loves looking at the photos which are filled with bright colors and actual photos of dogs, not cartoons, which is what we wanted. Each touch & feel option is great.

Purchased it for a 1 year old. Apparently, this is the only book he reads everyday!!
