Customer Reviews

As a letterer and calligrapher it's always nice to have actual practice sheets since I do practice everyday. Anyone wanting to buy this needs to BE AWARE that this is filled with only guidelines and not Information on HOW to do lettering or Calligraphy. It is solely for the purpose of practice. If you want to learn calligraphy I suggest a different book. They do have a website you can go to to download different modern Calligraphy fonts and then practice in this book. One issue I have with this is when I am using my nib and Sumi ink (Calligraphy ink) or any ink at that, it does bleed through the pages. I am afraid to use my tombows Because I don't know what kind of paper it is and I fear my tombows will fray. There are 3 different types of guidelines in this book. Slanted Calligraphy lines, basic lines and dot grid. It is what it says it is... A notebook.

much needed for practicing calligraphy.

Love

These booklets are great for learning how to write, Not just "write" but to write beautifully.

Would have preferred more practice pages. Its okay for practice but you have to go somewhere else for practice templates.

Good product.

excellent for a beginner calligrapher. Thumbs up from my niece!

hOPE I can learn from this!!
