I started playing the piano when I was 6 and while I loved playing classical music and Disney music scores, my mom appreciated getting to hear soothing music while I was practicing. She bought me this book after I had been playing for 3 or 4 years. It took time to work my way up to some of the more difficult pieces, but it was worth the practice. It has now been 20 years since I lived at home, and when I last visited and tried to find my old piano music, I was heartbroken to learn that my

mother (who never played the piano herself) had disposed of all of the music and sold the piano. I was thrilled to be able to find this sampler here on .These songs are beautifully written and sound wonderful. If you have an intermediate pianist in your house, or if you've grown tired of the classics over the years, this is a great book to renew your joy in beautiful music.

Loved playing every song in this piano book. Some the best New Age greats are in this book. Highly recommended.

Love the songs in this book! One of my favorites! I play through it always!

For someone like me that is not a natural pianist this book is easy to work with. I do need to take my time in learning each piece, but once I do it's very rewarding.

I love the music, perfect for an intermediate adult student

Great selections. I can't play them yet, but my granddaughter sure can!

Love the sampler. I sound just like the artists on Narada ! I would recommend this collection. Buy it now!

I was so excited to find this book. There aren't that many available, but I love the songs. They are absolutely beautiful.
