Get ready to laugh, learn and take exhaustion and frustration out of parenting

THE best advice on child rearing...ever! Better than John Rosemond, better than Raising Children God's Way and better than our many sessions w/ our child psychologist, even. Our ADHD, ODD 7 year old is finally on the right track now that her parents are. Pearls of absolute wisdom. Treats both children and parents with dignity and respect, facilitating a loving parent/child relationship. Having this info in CD rather than book form is also invaluable as repetition (some experts say 7x) is key to assimilating new information. I just play Jim Fay CD's continually in my car when driving child-free. ;)

These books are incredibly awesome. We bought about 6 of them, and are making our way through them. A wonderful side effect is that they are so effective that if you spouse and you can't agree on how to handle the kids, or have arguments over the matter (totally our case), they make such a solid case for doing it "their" way, you can use it as a third party/ mediator. The books have tons of examples of each scenario, which reinforces the concepts very well.

I wish I had found this series when the kids were younger, however, I still use the techniques with my 16, 14, and 11 year old. Listen to this CD first to get basics.

Opened up a new way of thinking. To think how many people should read this. I wish I could give one to every parent

This book CD offers great advice for frustrated parents who have toddlers. It worked for me! Also, great for those who don't have time to read another book...

Best parenting advice you will ever read

Jim Fay's Love & Logic series is easy to use and most helpful. He uses specific, effective strategies for handling common misbehavior.

Need to have, as parent/grandparent!
