Fundamentals Of Cost Accounting, 4th Edition

Synopsis

Please Note: Item is standalone. Fundamentals of Cost Accounting provides a direct, realistic, and efficient way to learn cost accounting, integrated with new technology learning tools. Fundamentals is short (approximately 700 pages) making it easy to cover in one semester. The authors have kept the text concise by focusing on the key concepts students need to master. The Decision opening vignettes and Business Application boxes show realistic applications of these concepts throughout. All chapters conclude with a Debrief that links the topics in the chapter to the decision problem faced by the manager in the opening vignette.

Customer Reviews

A Professor of Management at the University of California-Davis, Professor Maher previously taught at the University of Michigan, the University of Chicago, and the University of Washington. He also worked on the audit staff at Arthur Andersen & Co. and was a self-employed financial consultant for small -businesses. He received his BBA from Gonzaga University (which named him Distinguished Alumnus in 1989), and his MBA and Ph.D. from the University of Washington, and earned the CPA from the state of Washington. Professor Maher is president of the Management Accounting Section of the American Accounting Association, and has served on the editorial boards of The Accounting Review, Accounting Horizons, Journal of Management Accounting Research, and Management Accounting. Co-author of two leading textbooks, Principles of Accounting and Managerial Accounting, Maher has co-authored several additional books and monographs, including Internal Controls in U.S. Corporations and Management Incentive Compensation Plans, and published articles in many journals, including Management Accounting, The Journal of Accountancy, The

Accounting Review, The Journal of Accounting Research, Financial Executive, and The Wall Street Journal. For his research on internal controls, Maher was awarded the American Accounting Association's Competitive Manuscript Award and the AICPA Notable Contribution to Literature Award. He has also received the award for the Outstanding Tax Manuscript, and from the students at the University of California's Graduate School of Management, he has received the Annual Outstanding Teacher Award three times and a special award for outstanding service twice

Overall it was okay... Rating 3 stars because it arrived damaged slightly...Also it's ridiculous this book is this expensive and it's not even bound. I only bought this book because it's required. I wasn't about to spend another 50 bucks for binding.

The book's chapters give simplistic examples which makes it difficult to complete the more complicated homework exercises in the book or on an academic website.

The book was mis printed and whole punched in such a way that it didnt fit into any binder. I had already started class so didnt have time to return, but it was a huge inconvenience and not what I expected for the price I paid. I even tried several binders!

i took an online accounting course. And this book is the required textbook. I didn't buy the code, just bought the lose leaf book. My teacher was OK. I find the book to be quite informative, easy to comprehend, clearly organized, easy to follow, and interesting to read. Since I'm leading accounting from the beginning level, I enjoy reading about various aspects of the field. I also do the exercises at the end of each chapter. I decided to not continue the studying of accounting but will keep the book. And should I retake the class someday, I hope have a better teacher.

Expensive but worth the cost. Got the item the same day I ordered. No mess or wasting of time. customer service was awesome. Made sure the item matched the school's requirement on the book or free return.

needed for school, love this topic

great for school

I love this book. Lets be honest, Bond Amortization is the coolest thing ever.
