Keep It Up: Guided Self Hypnosis, Overcome Erectile Dysfunction: Gain Sexual Confidence & Maintain An Erection With Affirmations

Synopsis

This guided self-hypnosis program was designed to assist the male listener in getting and keeping an erection, releasing basic beliefs that tend to inhibit sexual functioning, and gaining sexual confidence. Please note, some erectile dysfunction can be caused by an underlying medical condition and in such cases should be addressed by a medical doctor. The hypnosis induction features isochronic tones which are a form of brainwave entrainment to help achieve deeper relaxation. Also included within this program is an extended affirmations track, a meditation track (partly guided, with ancient Solfeggio frequencies), and an exciting and powerful drum journey bodywork track. Using an alternate induction, hypnotic drum beats, and posthypnotic suggestions related to keeping it up, this drum journey is designed to get the listener out of their brain and back into their body. Many find this useful for releasing energy blocks, healing, and integrating the mind, body and spirit. Written and narrated by Anna Thompson, MA, MHP, LMHC, advanced clinical hypnotherapist.
