Customer Reviews

This is a super fun book for pianists of all ages! As a more advanced player, I was able to sit down and play pieces that I love and add in whatever chording or accompaniment I wanted, while having the basic melody in front of me. For my children, who are currently learning this level of the Alfred's Premier course, it is a rewarding way for them to improve their sight-reading, while not getting frustrated with a more advanced piece. They love that they can play some of their favorite pieces from my Pandora stations, and that they have the words right in front of them too. This is a fun way to get my kids to enjoy their practice time!

good piano book!

The Premier Piano Course books are excellent! However, the Pop and Movie Hits leave a lot to be desired. My seven yr old grandson cannot relate to the older music, except for Theme from Star Wars.

Great. My kids love it.

I love these piano books

It's my party was too short.
