Lakeside Company: Case Studies In Auditing (12th Edition)

Synopsis

The cases in The Lakeside Company are intended to create a realistic view of how an auditor organizes and conducts an audit examination. These cases provide a simulation that permits learners to put the abstract and difficult concepts of auditing into practice.

Book Information

Average Customer Review: 4.3 out of 5 stars 3 customer reviews

Best Sellers Rank: #69,278 in Books (See Top 100 in Books) #28 in Books > Business & Money > Accounting > Auditing #284 in Books > Textbooks > Business & Finance > Accounting

Customer Reviews

Is a one-time use due to being printed on cheap paper. The information it contains is fine. These are audit case examples with questions, there is no teaching material in this book. Unless you know auditing, supplement this book with an audit textbook (anything printed after 2010) or you may not do well in the class. Some information can come off internet, but you really need an audit textbook to get a decent grade. Read all the cases (about 1 hour total) at the beginning of the class to save tons of time during the class.

good used book!! clean and complete!!

My book was brought on time and was just like the description said.
