Very disappointed. I was expecting "nursery rhyme" songs and I got mainly old show tunes and Disney songs. I don't expect most children to know/love/want the old show tunes (Dites-Moi from

South Pacific!) but older children would enjoy the Disney songs. They are not what I needed for my 2 year old grandchild. There are a few nursery classics (Yankee Doodle, Old MacDonald, Pop Goes the Weasel)...but Elvis' Love Me Tender and Getting to Know You (The King & I) ?! I wish there had been a complete listing of songs or I would not have ordered. I DO like the arrangements so if you want Disney songs and some really OLD songs (It's a Small World, I'm Popeye the Sailor Man, This Is My Country), you'll like this book. I'm going to try to return it.

Easy and enjoyable version of well known songs. At my (intermediate) piano level, I can play them directly and have my children sing together (no need to prepare/study them, unless to perfect some passages). Even my daughter (1 year of piano studying) can play the easiest pieces, but she has to study them somewhat in order to get something pleasurable. The main limits are from the Italian perspective:- some pieces are pretty American, so my children don't know them (solution: just ignore them)- the most famous pieces are from Disney movies, but children know them in the Italian version (solution: search Italian text on the Internet...or sing by heart...). All in all I'm happy with this songbook

Unbelievable great book it's big and lots of songs. Best buy I've gotten and I get a lot of great items through .

Not really children songs or any songs you would expect from the title. Its all Hollywood and Disney promotions. Returned it.

Excellent. Real sheet music, but simple harmonies and moderately larger print, very appropriate for kids. It's perfect for inspiring my 8-yr-old. It's beyond him as a total beginner, but exactly what he needs after getting over the initial learning-how-to-read-music hump. Exactly the level of difficulty that I hoped for, for him. This will be useful for at least a few years. And two Muppet songs!!! :)

I grew up playing out of this book on the family piano. Many of these songs helped me become a better pianist. The book contains many favorites, including Disney songs, nursery rhymes, and some musicals. Lyrics are also supplied. This is a must-have for any piano beginner's collection as it will further appreciate their love of music. It is also a good book to have if people want to gather around the piano and have sing-alongs.

If you're new to piano and you have kids, this will let you play songs they are familiar with and may even sing and dance along as you play. Pretty good arrangements for these types of songs, in my opinion. Varying levels of beginner. A huge number of songs to play so you won't get bored with it any time soon. I think kids would like it too if they've been playing for a little while.

This songbook has a great selection of songs! I would give 5 stars if the book was easier to keep open. I have only had this book for a few weeks, and maybe after opening it more often the spine will loosen up a little bit better and stay open easier, but right now it is still too stiff and does not want to stay open. A spiral bound version would be very beneficial.
