This book is great! There are a really good quantity of crosswords. They're challenging but definitely age appropriate for ages 7+. And the illustrations are super cute! I definitely recommend this book.

I love the book's graphics! The books appear to be very fun for kids to learn about the various subjects that are introduced in the book. The crosswords are just enough for younger children (although I would make it 8 years and older). Some children may not be able to answer some of the questions to complete the crossword and will need adult assistance. I would recommend having the answers in the back of the book because what may be obvious to one person may not be obvious to another one as far as answers.

I bought this crossword book to be used with my 3rd graders. There are 89 puzzles inside with 4-9 words needed for each puzzle. There is no word bank for the puzzles, but there is enough room on each page to add the words if needed. The answers are not in the book, but are available on a website that is listed in the back of the book. My 3rd graders needed a word bank for the puzzles, but higher level students would probably be fine without one. The print is plenty big, and the illustrations are cute. These puzzles would be great for morning work or homework.
