Hollywood, Interrupted: Insanity Chic In Babylon -- The Case Against Celebrity

Synopsis

Hollywood, Interrupted is a sometimes frightening, occasionally sad, and frequently hysterical odyssey into the darkest realms of showbiz pathology, the endless stream of meltdowns and flameouts, and the inexplicable behavior on the part of show business personalities. Charting celebrities from rehab to retox, to jails, cults, institutions, near-death experiences and the Democratic Party, Hollywood, Interrupted takes readers on a surreal field trip into the amoral belly of the entertainment industry. Each chapter â” covering topics including warped Hollywood child-rearing, bad medicine, hypocritical political maneuvering and the complicit media â” delivers a meticulously researched, interview-infused, attitude heavy dispatch which analyzes and deconstructs the myths created by the celebrities themselves. Celebrities somehow believe that it's their god-given right to inflict their pathology on the rest of us. Hollywood, Interrupted illustrates how these dysfunctional dilettantes are mad as hell... And we're not going to take it any more.

Customer Reviews

Spot On Breitbart nails it.

The read is interesting. Something to think about.

Great read. Interesting.

Excellent book.

Came in good condition

It just goes-to-show what we should have already known; celebrities, like everyone else, are only human. That includes politicians too. Both major parties. Just because someone skyrockets into the limelight, doesn't now make them the experts on what to believe, morals, or who to vote for. Most of these people don't even know what they believe themselves, only the "politically correct" trends-of-the-day. We may enjoy the movies they make, or maybe that beautiful song they just put out, but when it comes to being a spokesperson for today's issues, use your brain and think for yourself.

I like the book because it's Breitbart talking. It seems a little dated since it mentions thing that happened while ago but then it makes you think..... What did I miss!! Too bad the guy is gone and after reading his other books, get quite a political education.

Breitbart and Ebner have produced an excellent tell-all book about the excesses and down-right insanity that rule Hollywood. From the drug induced haze that Courtney Love lives in to the throw-away children squeezed out by so-called celebrities. It's all here in a well written and documented book. The chapter on Hollywood Family Values will make you mad. The section on Hollywood Lefties and their outrageous political agendas should have you rushing to the poles to vote conservative. This book is a quick read. Although, Hollywood Interrupted is at times quite funny, it is very sad to think that these damaged people influence every aspect of American society.
