Cara Frost-Sharratt was an editor of a number of food and lifestyle magazines before turning to writing. Recently she has contributed to books such as 501 Must-See Films, as well as working across a wide range of lifestyle titles and launching a film and book review website.

The card tricks range from very easy to difficult. There are at least a dozen or more classic tricks that will fool most people. There are also numerous weak tricks that might only work on a small child. Nevertheless this is a good card trick book which will be suitable for most amateur magicians like me. The tricks are varied, well explained and most are easy to learn. A few tricks, if done correctly, will have a great impact when performed. Highly recommended for amateurs.

great book

For what it's supposed to be - a book for beginners - it's a great bang for the buck and a great way to dip your foot in the pool of card magic. You won't fool Penn and Teller with anything in the book,

but you'll fool most everyone you know. A particularly nice feature of the book is that the tricks come with performance tips, stuff to do and stuff to avoid when you're showing a trick. The previous review says that a lot of descriptions are confusing, but I didn't see a single one that was. And as for the previous reviewer's "Some of the tricks take to long to set up the deck and if some one shuffles it the trick is done for. I perfer more slieght of hand card tricks," I would contend that anyone with sufficient skill in sleight of hand already knows a lot of these tricks anyway (and therefore shouldn't be confused by the clear descriptions within!).If you buy this book, like it and wish to progress further, make your next stop "Royal Road to Card Magic."

alot of card tricks but some confusing descriptions. Some of the tricks take to long to set up the deck and if some one shuffles it the trick is done for. I perfer more slieght of hand card tricks.
