The Pimsleur Method We make no secret of what makes this powerful method work so well. Paul Pimsleur spent his career researching and perfecting the precise elements anyone can use to learn a language quickly and easily. Here are a few of his secrets:

- The Principle of Anticipation In the nanosecond between a cue and your response, your brain has to work to come up with the right word. Having to do this boosts retention, and cements the word in your mind.
- Core Vocabulary Words, phrases, and sentences are selected for their usefulness in everyday conversation. We don't overwhelm you with too much, but steadily increase your ability with every lesson.
- Graduated Interval Recall Reminders of new words and structures come up at the exact interval for maximum retention and storage into your long-term memory.
- Organic Learning You work on multiple aspects of the language simultaneously. We integrate grammar, vocabulary, rhythm, melody, and intonation into every lesson, which allows you to experience the language as a living, expressive form of human culture.
- Learning in Context Research has shown that learning new

words in context dramatically accelerates your ability to remember. Every scene in every Pimsleur lesson is set inside a conversation between two people. There are no drills, and no memorization necessary for success. Active Participation The Pimsleur Method + active learner participation = success. This method works with every language and every learner who follows it. You gain the power to recall and use what you know, and to add new words easily, exactly as you do in English. The Swiss German Language The Swiss federation is composed of 23 member states known as cantons. About 65% of the Swiss population speak Swiss German and it is spoken in 11 out of the 23 cantons. Pimsleur's Swiss German uses speakers with urban intonation and pronunciation spoken in cities such as St. Gallen, Zurich, and Basel. Tech Talk - CDs are formatted for playing in all CD players, including car players, and users can copy files for use in iTunes or Windows Media Player.

Dr. Paul Pimsleur devoted his life to language teaching and testing and was one of the world's leading experts in applied linguistics. After years of experience and research, Dr. Pimsleur developed The Pimsleur Method based on two key principles: the Principle of Anticipation and a scientific principle of memory training that he called "Graduated Interval Recall." This Method has been applied to the many levels and languages of the Pimsleur Programs.

I love this product! I am a Swiss American who unfortunately was not taught Swiss German by my

mother. I learned standard German in school. I listen to the program in the car and I have also saved it to my itunes on my mac. It is so helpful: The repetition, broken down pronunciation, and build up. The fact is that Swiss German is almost nothing like German. Without this methodical method, I don't think I would be making the transition so well. I am actually retaining the information. I can't wait for my next visit!

I like that it is easy to use and there is a good amount of time to repeat the material and that the process is broken down into little pieces. The drawback is that there are many dialects to the Swiss German language which Pimsleur does not include. Otherwise, the Pimsleur program is next to perfect in being effective and user friendly.

Its unfortunate there are no other programs teaching Swiss German, so one can not compare this; having said that, this appears to be a good, functional program that does a good job teaching a very limited vocabulary

The only Swiss German guide I have seen and it works pretty dang well. I have only made it through the first 5 tracks but I can actually remember what it teaches. You may sound a bit like a recording at first but as you get used to the language that disappears.

I've been enjoying the lessons. They're easy to listen to during my commute. I haven't had any trouble picking up in the middle of a lesson after multiple days and am surprised by how much I remember. I do listen to each lesson 2-3 times. Well worth the money.

I had to replace my cassettes with CDs - it was time. This is a great set that my kids and I enjoy listening to. The accent is Zurideutsch.

I loved it ,,, but I wish they have more than 10 lessons in Swiss German...

Only get to say hello and can I eat potatoes with meat. The method is good... just not enough content for me.
