## **Customer Reviews**

The item description says this is for reading level "ages 8-11". I assume that is based on the text on the pages, but it's misleading, since this is a maze book. Based on others' reviews, I thought this would be good for my son and got it for him for his fifth birthday. He sat down and completed the whole book in about 15 minutes and said it was too easy. I hope people aren't buying this for their kids who are 8-11, based on the description. It would be nice if the product images included a few of the pages so people can actually see what they're getting.

Returning this product. Didn't realize how small it was and the price tag on the book is actually 1.50 which is less than what charges.

This little book is such a hit. Its size is perfect for keeping in the diaper bag. I pull it out for long

waits at the doctor's office or restaurants. It's so handy. The pages are black and white and we color them in addition to doing the maze. I have a few small colored pencils (they don't melt like crayons in a hot car) tucked into a ziplock bag in my bag to be ready if we get stuck somewhere.

We bought some of these mazes books for our son to work on while at church or in the car on long trips. These are pretty easy to work out but he still has fun. Highly recommended if you have a overactive child who needs something to keep them occupied.

Perfect for my Pre-K son to give him something else to do during the homeschool day when I'm working with his older sister. This is easy for him to do by himself but also enjoyable for him to share with his siblings! It was the perfect addition to his Easter basket.

These mazes are perfect for my 3 year old. They are light, small and easily fit in a purse or small bag for keeping little ones busy in restaurants, on planes, etc. We have purchased many of the variety of these little books including the mazes, find the differences, and hidden pictures.

Good way to waste some time on a road trip away from the electronic devices. good variety of difficulty level. My 7 and 4 year old enjoy it

The book is very tiny. This is for small children so they need big books to see things better. Very disappointing.
