Great Books! We buy this on recommendation from our piano teacher and they have helped my daughter learn her piano and she loves playing everyday! We have recommended these books to other friends that are taking private lessons as well.

Piano Adventures makes teaching my daughters piano fairly easy. The progression that these books follows makes sense and helps my kids go from one lesson to the next. My husband teaches them and plays the piano well but wouldn't be able to teach them without these books. They are a great tool and I am so excited that my girls are learning how to play.

These books are fantastic. The music is fresh, interesting, and well considered. The books work very well to support each other. I absolutely love all of the additional tips, challenges, and musical ideas presented beyond the songs themselves. As a piano teacher, this is my favorite series to

teach from! Just a note: if you're transitioning from other series, there may be a few advanced concepts not introduced in other series at the same level. I love how they incorporate great musical concepts at an early stage though!

My son used Bastien piano basic in the beginning when he was 3. A few months later after he finished level 1B, he transferred to Piano adventure (Lesson, Theory, Performance, Technic & Sight-reading), because his piano teach was using it. It's well organized. Also, my son is learning fast using this book. I think he finished all 2A books in 2 or 3 months. We are all happy with his new books.

Purchased 3 sets and all are packaged excellently in plastic then boxed. Piano teacher requested and approved.
