Susan B. Neuman is a professor and the chair of the Teaching and Learning department at the Steinhardt School of Culture, Education, and Human Development at New York University specializing in early literacy development. Previously, she served on the faculty of the University of Michigan and before that as the US assistant secretary for elementary and secondary education. In her role as assistant secretary, Neuman established the Early Reading First program, developed the Early Childhood Educator Professional Development Program, and was responsible for all the activities in Title 1 of the Elementary and Secondary Education Act.

This appears to be a book about sloths in the Rainforest. It's not. It's about the Rain forest and a

sloth makes a single appearance.

My kindergartners LOVE the National Geographic Readers and even though this particular title is more for pre-readers, we just had to read it for the week leading up to Easter.

Great information in an easy to read format. Got it for my granddaughter because she wants to get a bunny.

Wasn't aware this was a pre-reader age mg for kids. Didn't much care as I wanted the pics which are lovely as National Geographic usually are. Delivered quickly. No damage or issues at all.

Awesome little book.

Great photographs! True National Geographic quality! My grandson loved it!

My students enjoyed learning about bunnies. It was easy for them to read and comprehend. I would recommend this book.

Love these National Geographic Readers. I'm a reading teacher.
