Songwriting: Lyric And Melody Writing For Beginners: How To Become A Songwriter In 24 Hours Or Less!

Synopsis

Have you ever wanted to write a song? For a band or concert? For a significant other? To express your sentiment? To memorialize an event? Just to add a tune to some published literature? Is your dream to write a beautiful song full of emotions? Is it your goal to create a fast-paced, energizing track? Then you're going to want to listen to this book. With the help of this book, you can turn your dreams into reality. Many people just think songwriting is too complicated and never even attempt to achieve their goals. A song can be used to convey much deeper emotions than just words alone. Where words may fail, a song can touch someone's heart. With every known culture in history utilizing some form of music, it's become one of the most important aspects of many people's daily lives. Music can be used to pass down a tradition, to create excitement, or to bring a major issue to society's attention. If you want to write and perform a song for any reason whatsoever but just can't seem to get started, then this book is most definitely for you. This book will teach you... What music means How to write meaningful lyrics The process of making catchy melodies Writing effective hooks Basic songwriting knowledge What makes a song a hit How to put meaning behind your lyrics Effective song structure How to record your song What the publication process of a song is like Songwriting is a skill that requires a lot of knowledge in several different areas. This book will inform you on the most important parts of each subject. With the help of this book, you'll be writing meaningful songs in 24 hours or less!

Customer Reviews

If you have any interest to learn about how to write a song and become a professional song/lyric writer, then you are on the right place and this book will be perfect choice for you as far I can say. I found it a few weeks ago and after reading it entirely I was so impressed. Throughout this book I have come to know about what exactly music means and how to write meaningful lyrics. This book showed me the process of making catchy melodies and it helped me enlarged my knowledge about the basic song writing. It also helped me to get a good understanding about how to record my song and the effective song structure. Even I got some of my questions answer from here so I am really pleased by reading this book.

I got this book as a gift to my friend who started to learn guitar. He has enough guitar tutorials and books so I decided to get him a book about songwriting. This is a really good book for someone who doesn't have a clue where and how to start writing tunes, lyrics and everything that goes in a song. It seems like a major project, but this book breaks it down to simple steps, explains what is important in each one and you end up with a complete song. Of course, lots of it still depends on your own creativity and a knack for writing, but it is a great start.

I only write songs whenever I'm inspired. I'm not a music major but this doesn't stop me, but I love music. I play the piano and guitar and whenever I feel like writing a new song, I'll always sit on my piano and pour my heart out. I saw this book on in hopes to give myself some boost in songwriting. This book is a comprehensive books and it does not just give you technical views, but inspiration too. It tackles how you should research on some other music and find inspiration from there. A very good book if you are a beginner in songwriting too. You'll learn the basics, how to get inspiration and how to finish your song flawlessly.

Its a great book . The content of the book is very useful and informative . This book can develop your song writing skills .In this book , you will not learn how to write lyrics ,but you'll also learn about creating a melody that will hold the song together . It also teach us on ,how to choose a genre , get started writing your song ,significance of a song title , to craft a catchy hook , the basics of song structure and ultimately , how to write a song in 24 hours or less .It is very helpful and informative .

This book does not only contain suggestions and ideas for writing a song, but also it also gives you so various techniques and plans for songwriting, It includes everything from subject to lyric to melody to chord a progression and many more. Along those same lines, this book will also help you

begin to think critically about the music to which you are currently listening. Overall, this is a good guidebook to someone who is new to this concept.

Thank you I can learn from this book. Clean and neat looking.

For anyone who has had even a smattering of music instruction in high school band, glee club, church choir, or private lessons, you already know more than this book offers. Don't waste your money.

I don't have a magical singing voice but I have always loved music and writing. I've been wanting to compose my own song for years but most of the time I only end up with stories and poetry. I got Alexander's book to help me transition from a writer to a songwriter. I would like to channel my emotions and my writing to become a song writer and I am doing that slowly through Alexander's book.
