Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

If you have had several years of lessons, these are difficult enough to take some work, and easy enough to master fairly quickly.

I've been playing the piano for over 70 years and much of my music became very brittle and unusable. It was great to find so many of my favorite pieces all in one book!

Gives my wife more to play on her piano. She loves these songs. Very nice book with nice weight. Looks like it will hold together well over time.

I like that the spine on this book is constructed in a way that allows it to lay nearly flat. So much better than having to break the spine.

This collection of 65 pieces, has good choices of songs for the different categories of music that someone playing piano gigs will need to know. These include showtunes, jazz tunes, classical, Latin, pop-rock, love songs, standards, and even miscellaneous songs such as Hava Nagila, and the Star Spangled Banner. The basic piano arrangements are good, but not too complicated. A good pianist can use these basic arrangements and go on and improvise two or three more choruses. But for the non-improvising pianist, the arrangements will sound good. Even for the improvising pianist, these written arrangements give a good idea of how the song should probably feel. That's why they are better than simply using a lead sheet or fake book. And, for the non-performing pianist, they are just plain fun to play. You will find many of your favorite songs in this book.

Excellent depth here for intermediate or above player - nicely arranged and many many great songs.

Great addition to my repitoir (spelling!).

It is a little above my capabilities, but I like the songs. Again, it does not designate the chords.
