Danielle Steel has been hailed as one of the world's most popular authors, with over 590 million copies of her novels sold. Her many international bestsellers include Happy Birthday, 44 Charles Street, Legacy, Family Ties, Big Girl, Southern Lights, and other highly acclaimed novels. She is also the author of the story of her son Nick Traina's life and death.

I listened to these books on CD. They kept me from falling asleep at the wheel. I thought the plot dragged just a bit at times, but overall, they are good. And I say that in spite of the fact that they were out of order in the box, so I listened to the second one first. I liked this series pretty well, although it is hard to relate to people that rich. The reader for the three books did an excellent job.

Use to read her books, guess I skipped over her language which you can't do on cd. I only listened to a chapter and there were so many cuss words, it was a total distraction. Wish I could return it. VERY disgusted, and will not order any more of this authors.

DS books never go out of style. her plots are different, not always likable, however, enjoyable. Good read, excellent value, this collection are some of her older books. DS doesn't disappoint. DS doesn't disappoint.

My wife likes Danielle Steel's books, but so far she hasn't liked what she has heard of these novels. She got through half of the first novel and didn't like it. She has just started a 2nd and she is not showing a whole lot of interest.

Not a new one and not a favorite
